

Report on Guidance of Competitive Examination 2022-23

Career Katta

- To make the students competent for standing on their own feet beginning some new venture in the society.
- Under Career Katta this plan is implemented with co-ordinator of Maharashtra Government and the Indian Constitution of India for the overall development of the girl students.
- Similarly, the current often knowledge of the students is also taken care off.
- Students are prepared for UPSC/MPSC examination.
- Free UPSC examination training selection is provided to the eligible students.
- Pre-training for the entry for Police entrance examination is given to the students.
- Awareness for Cyber Security exam and training is given.
- Economic / Financial literacy among the students is allowed by different workshops and seminars.
- The students are made aware about the Environmental and Awareness.

1. The Context:-

- Career Kutta has been started in collaboration with Govt. of Maharashtra and our college with an aim to prepare girls for upsc and mpSC examination with minimum fee structure i.e. Rs. 365/- for three years that comes down 30 paise per day and every day one hour online claries are conducted for the preparation which is highly beneficial. The selected students are also provided free further coaching/ guidance.
- Self Defence is also started with an aim to make the girls self sufficient for themselves looking at the latest times nowadays. The girls are trained, giving practice for self defence showing different situations. The purpose of this course is kept in mind as per the vision and mission of our college where it is stated that all the girls from all state of society are being trained to face situations and made empowered.
-

2. The Practice:-

While practicing career Katta and Self Defence as best practice during this assessment senior our college has tried to best implement and reach out to the maximum but still these have been certain constraints and limitations during actual practice of the plans. As our girl students have been from the rural poor background, they felt difficult to follow the plans to upto cent-percent due to lack of their command on knowledge or English language as well as IT knowledge. In villages, we do face the Internet problem and hence several times they turned the online classes. Majority of the students are so poor that they could not afford to go to good libraries and purchase books. Commuting is another problem many and times. Overall the program has been a great success as the students enjoyed the program.

3. Evidence of Success:-

Patil Sandhya Jeevan passed the Prelim exam of UPSC 2022.

We assure that the student named Patil Sandhya Jeevan could clear her prelims of UPSC examination of preliminary attempt of 2022 only due to the efforts of Career Kutta coaching that we had started at our college level in association with government of Maharashtra where every day the experts had been conducting classes online and motivating the students for such competitive examinations. Otherwise, our students never had such opportunity before to go for such high level exams being at tribal background.

4. Problem Encountered and Resources Required :-

Since our college is located in a tribal area, it had been a very Hercules / difficult task for all of us prepare mentally all the students as well as the parents to prepare for the competitive examinations such as UPSC/MPSC.

Similar in the case to invite the girls for the self defence classes who are living in this region.
